**Order no.:** 21250

**Article number:** 21250

**EAN:** 4010995212506

**Customs tariff number:** 82054000

**Simplifies your work:** Striking cap integrated into the handle allows you to strike and lift with the screwdriver.

**Increases your efficiency:** Unique Wiha handle-length concept for optimum balance of torque and control.

**Protects your health:** With the patented SoftFinish® handle design, ensuring work is kind to hands and muscles. Recommended by doctors and therapists at German Campaign for Healthier Backs.

**Makes handling easier:** Easy loosening of tight screws thanks to hex bolster for spanners.

**Product dimensions:** 353 x 237 x 44 mm (LxWxD)

**Application:** Highly suitable for dry applications in trade and industry. Ideal for loosening seized screws and applying higher torque values.

Ergonomic working – Recommended by doctors and therapists of the German Campaign for Healthier Backs

Wiha handle size concept - powerful and sensitive fastening

Integrated striking cap allows users to strike and chisel with the screwdriver

Easy loosening of tight screws thanks to hex bolster for spanners

Rusted or glued screws in particular are often difficult to undo. The SoftFinish® screwdriver set with striking cap and hexagon head provides optimum capabilities for screw-fastening, gouging and chiseling. The solid steel cap on the handle end allows direct hammering – to loosen screws which are stuck, for example. The impact energy is transmitted without any losses due to the direct connection between the solid steel cap and blade. The hexagon head on the blade enables higher torques to be transferred using a screw wrench. Wiha screwdrivers are also distinguished by their sophisticated handle size concept. The different handle heights are always matched to the fastening. The long, slender handle heights can be used to fasten small screws quickly and firmly. There are also large-volume handle heights to fasten large screws which can be used to apply greater torques. Thanks to its optimum grip, the SoftFinish® screwdriver is particularly suitable for applications in dry environments. The position of the soft and hard zones on the handle also supports the perfect grip for quick and powerful turning. The matt chrome-plated chrome vanadium molybdenum steel guarantees robustness and a long service life, while the ChromTop® blade tip guarantees that the tip keeps its form.

Content:

- 1x Screwdriver SoftFinish® Slotted with one-piece hexagonal blade and solid steel cap 3.5 mm x 75 mm (03223)
- 1x Screwdriver SoftFinish® Slotted with one-piece hexagonal blade and solid steel cap 4.5 mm x 90 mm (03224)
- 1x Screwdriver SoftFinish® Slotted with one-piece hexagonal blade and solid steel cap 5.5 mm x 100 mm (03225)
- 1x Screwdriver SoftFinish® Slotted with one-piece hexagonal blade and solid steel cap 6.5 mm x 125 mm (03226)
- 1x Screwdriver SoftFinish® Phillips with one-piece hexagonal blade and solid steel cap PH1 x 80 mm (03237)
- 1x Screwdriver SoftFinish® Phillips with one-piece hexagonal blade and solid steel cap PH2 x 100 mm (03238)
