Order no.: 24312

Article number: 24312

EAN: 4010995243128

Customs tariff number: 82041100

**Makes handling easier:** Sliding function for one-handed opening of the holder and simple, quick removal.

**Product dimensions:** 231 x 87 x 26 mm (LxWxD)

**Application:** Suitable for fastening and loosening TORX® screws.

Easy removal

Keeping many different L-keys safe and organized to prevent loss can be awkward and annoying. The ProStar holder from Wiha has changed all that. Simply pushing the holder open grants free access to the L-keys that can be quickly removed through a tilting mechanism. A clamping mechanism in the holder makes sure that the keys cannot fall out, regardless of whether the holder is open or closed. The set contains thirteen black-oxidised TORX® L-keys in standard sizes. The L-key set can be hung up directly at the workplace using the suspension bracket on the holder.

Content:
